## INDEPENDENT AUDITORS' REVIEW REPORT

The Board of Directors and Shareholders  
Senao International Co., Ltd.

### Introduction

We have reviewed the accompanying consolidated balance sheets of Senao International Co., Ltd. and its subsidiaries (collectively, the "Group") as of June 30, 2026 and 2025, and the related consolidated statements of comprehensive income for the three months and six months then ended, as well as the consolidated statements of changes in equity and cash flows for the six months then ended, and the related notes to the consolidated financial statements, including a summary of material accounting policies. Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, and International Accounting Standard 34 "Interim Financial Reporting" that came into effect as endorsed by the Financial Supervisory Commission (FSC). Our responsibility is to express a conclusion on these consolidated financial statements based on our reviews.

### Scope of Review

We conducted our reviews in accordance with the Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

## Conclusion

Based on our reviews, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Group as of June 30, 2026 and 2025, and of its consolidated financial performance for the three months and six months then ended and its consolidated cash flows for the six months then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, and International Accounting Standard 34, “Interim Financial Reporting” that came into effect as endorsed by the FSC.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE SIX MONTHS ENDED JUNE 30, 2026 AND 2025 (In Thousands of New Taiwan Dollars, Unless Stated Otherwise) (Reviewed, Not Audited)

---

### 1. GENERAL

Senao International Co., Ltd. (“Senao”; Senao and subsidiaries are hereinafter collectively referred to as “the Group”) was incorporated in the Republic of China (“ROC”) on May 18, 1979. On January 12, 2001, Senao received approval from the Securities and Futures Commission (the “SFC”) for a domestic initial public offering and its common stocks were listed and traded on the Taiwan Stock Exchange (the “TWSE”) on May 24, 2001. In need of organizational reorganization and professional operation of all kinds of businesses, Senao has spun off the wireless communication business segment, including its assets and liabilities and incorporated Senao Networks, Inc. pursuant to the Business Mergers and Acquisitions Act. The spin-off date was October 1, 2006.

Senao mainly sells mobile phones, information appliance, home appliances, peripheral products, and health care products, and provides the related repairs and maintenance services.

Chunghwa Telecom Co., Ltd. (“Chunghwa”) acquired the shares of Senao on January 15, 2007. Chunghwa has a substantial control over Senao, and it is the ultimate parent entity of Senao. As of June 30, 2026, Chunghwa’s ownership interest in Senao was 27.79%.

The consolidated financial statements are presented in Senao’s functional currency, the New Taiwan dollars.

### 2. APPROVAL OF FINANCIAL STATEMENTS

The consolidated financial statements were approved by the Board of Directors on July 31, 2026.

### 3. APPLICATION OF NEW, AMENDED AND REVISED STANDARDS AND INTERPRETATIONS

- a. Initial application of the amendments to the International Financial Reporting Standards (IFRS), International Accounting Standards (IAS), IFRIC Interpretations (IFRIC), and SIC Interpretations (SIC) (collectively, the “IFRS Accounting Standards”) endorsed by the Financial Supervisory Commission (FSC) and set effective from 2026.

The adoption of the above new issuance of or amendments to the IFRS Accounting Standards as endorsed by the FSC had no material impact on the Group’s accounting policies.

- b. The IFRS Accounting Standards issued by the International Accounting Standards Board (IASB) but not yet endorsed by the FSC

Note 1: Unless stated otherwise, the above IFRS Accounting Standards are effective for annual reporting periods beginning on or after their respective effective dates.

Note 2: The FSC has announced on February 6, 2026 that public companies will adopt IFRS 18 starting from the fiscal year 2028. Additionally, entities can choose to adopt IFRS 18 earlier based on their needs after the FSC endorses IFRS 18.

As of the date the consolidated financial statements were authorized for issuance, except IFRS 18, "Presentation and disclosure in financial statements", the above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

#### **4. SUMMARY OF MATERIAL ACCOUNTING POLICY INFORMATION**

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

##### **Statement of Compliance**

The consolidated financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Accounting Standard 34 "Interim Financial Reporting" as endorsed and issued into effect by the FSC. The consolidated financial statements do not present all the disclosures required for a complete set of annual consolidated financial statements as required by IFRSs endorsed and issued into effect by the FSC.

##### **Basis of Preparation and Consolidation**

- a. Refer to principles prepared and used to the consolidated financial statements for the year ended December 31, 2025.
- b. See Note 10 and Table 6 for detailed information on subsidiaries, percentages of ownership and main businesses.

##### **Other Material Accounting Policies**

Except for the following, please refer to the consolidated financial statements for the year ended December 31, 2025.

- a. Defined benefit retirement benefits

Pension cost for an interim period is calculated on a year-to-date basis by using the actuarially determined pension cost rate at the end of the prior financial year, adjusted for significant market fluctuations since that time and for significant plan amendments, settlements, or other significant one-off events.

b. Income tax

Income tax expense represents the sum of the tax currently payable and deferred tax. Interim period income taxes are assessed on an annual basis and calculated by applying to an interim period's pre-tax income the tax rate that would be applicable to expected total annual earnings.

## 5. MATERIAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, management is required to make judgments, estimates and assumptions which are based on historical experience and other factors that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed by management on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Refer to the statements of material accounting judgments and key sources of estimation uncertainty to the consolidated financial statements for the year ended December 31, 2025.

The average credit terms range from 30 to 90 days.

The Group uses other publicly available financial information and its own trading records to rate its major customers. The Group's exposure and the credit ratings of its counterparties are continuously monitored, and the aggregate value of transactions concluded is spread amongst approved counterparties.

Since the Group's customers, apart from the abovementioned corporate customers, are large and unrelated to each other, the divergence of the credit risk is constrained.

In order to minimize credit risk, the management of the Group has delegated a team responsible for determining credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews the recoverable amount of each individual trade debt at the end of the reporting period to ensure that adequate allowance is made for possible irrecoverable amounts. In this regard, the management believes the Group's credit risk was significantly reduced.

The Group uses the lifetime expected loss provision for all notes receivable and trade receivables. The expected credit losses on notes receivable and trade receivables are estimated using a provision matrix by reference to past default experience of the debtor and an analysis of the debtor's current financial position, adjusted for general economic conditions of the industry in which the debtors operate and an assessment of both the current as well as the forecast direction of economic conditions at the reporting date.

The Group writes off notes receivable or a trade receivable when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery. For notes receivable or trade receivables that have been written off, the Group continues to engage in enforcement activity to attempt to recover the receivables due. Where recoveries are made, these are recognized in profit or loss.

The following table details the loss allowance of notes receivable and trade receivables based on the Group's provision matrix.

Although the Group is the single largest shareholder of Senao Networks, as of June 30, 2026, based on the evaluation of the active participation of other shareholders in Senao Networks' shareholder meetings in the past, the Group did not have absolute dominance in voting on resolutions at the shareholders' meeting and held less than half of the directors' seats, which shows that the Group has no actual ability to unilaterally direct the relevant activities of the company, so it is judged that it does not control the company and only has a significant influence, and treats it as an associate.

Refer to Table 6 for the nature of activities, principal places of business and countries of incorporation of the associates.

Fair values (Level 1) of investments in associates with available published price quotations are summarized as follows:

## 19. RETIREMENT BENEFIT PLANS

a. Defined contribution plans

Senao, Youth, ISPOT, Aval, Wiin and Senyoung within the Group adopted a pension plan under the Labor Pension Act (LPA), which is a state-managed defined contribution plan. Under the LPA, an entity makes monthly contributions to employees' individual pension accounts at 6% of monthly salaries and wages.

b. Defined benefit plans

For the three months and six months ended June 30, 2026 and 2025, the pension expenses of defined benefit plans were calculated based on the pension cost rate determined by the actuarial calculation on December 31, 2025 and 2024.

An analysis by function of the amounts recognized in profit or loss in respect of the defined benefit plans is as follows:

Capital surplus from share premium and the premium from disposal of treasury shares may be utilized to offset deficits; furthermore, when Senao has no deficit, it may be distributed in cash or capitalized, which however is limited to a certain percentage of Senao's paid-in capital.

The capital surplus from movements of investments in associates and subsidiaries accounted for using equity method and subsequent invalidation from share-based payment transactions may only be utilized to offset deficits.

### c. Retained earnings and dividends policy

Under the Senao's dividends policy, where Senao made a profit in a fiscal year, the profit shall be first utilized for paying taxes, offsetting losses of previous years, setting aside as a legal reserve of 10% of the remaining profit, setting aside or reversing a special reserve in accordance with the laws and regulations, and then any remaining profit together with any undistributed retained earnings shall be used by Senao's board of directors as the basis for proposing a distribution plan, which should be resolved in the shareholders' meeting for the distribution of dividends and bonuses to shareholders. Senao's board of directors shall, with more than two-thirds of the directors present, and the resolution of more than half of the directors present, shall distribute all or part of the dividends, bonuses, capital reserve or statutory surplus reserve in cash, which shall be reported to the shareholders during their meeting. The provisions of the above paragraph which should be subject to the resolution of the shareholders is not applicable. For Senao's policies on the distribution of employees' compensation and remuneration of directors, refer to Employees' compensation and remuneration of directors in Note 22-f.

In order to meet "the balanced dividend policy" to conform with Senao's current operating environment and the goal of sustainability, the policy on the distribution of dividends emphasizes the need for Senao's stability and growth. No less than 30% of the distributable remaining earnings shall be

distributed as stockholders' dividends, of which cash dividends to be distributed shall not be less than 10% of the total amount of dividends to be distributed.

An appropriation of earnings to a legal reserve shall be made until the legal reserve equals Senao's paid-in capital. The legal reserve may be used to offset deficit. If Senao has no deficit and the legal reserve has exceeded 25% of Senao's paid-in capital, the excess may be transferred to capital or distributed in cash.

The Company should appropriate a special reserve when the net amount of other equity items is negative at the end of reporting period upon the earnings distribution. Distribution can be made out of any subsequent reversal of the debit to other equity items.

The appropriations of earnings for 2025 and 2024 were as follows:

|                                         | <b>Appropriation of Earnings</b> |                        | <b>Dividends Per Share<br/>(NT\$)</b> |                   |

The changes in the balance of contract liabilities primarily result from the timing difference between the Group's performance and the respective customer's payment.

As of June 30, 2026, the long-term warranty agreements signed between Senao and customers have not been fulfilled. Revenue will be recognized in the following years as the performance obligations are satisfied over time.

f. Compensation of employees and remuneration of directors

According to the Articles of Incorporation of Senao, Senao accrued employees' compensation and remuneration of directors at rates of no less than 3% and no higher than 3%, respectively, of net profit before income tax, employees' compensation, and remuneration of directors. At least 5% of the employees' compensation and remuneration specified above shall be allocated for distribution to frontline employees.

If there is a change in the amounts after the annual consolidated financial statements are authorized for issue, the differences are recorded as a change in the accounting estimate and will be recognized in the following year.

The employees' compensation and remuneration of directors of the Group were as follows:

Senao may settle the employee compensation in shares or cash; therefore, Senao presumes that the entire amount of the compensation will be settled in shares, and the resulting potential shares will be included in the weighted average number of shares outstanding used in the computation of diluted earnings per share, as the effect is dilutive. Such dilutive effect of the potential shares is included in the computation of diluted earnings per share until the number of shares to be distributed to employees is resolved in the following year.

There were no transfers between Levels 1 and 2 for the six months ended June 30, 2026 and 2025.

2) Valuation techniques and inputs applied for Level 2 fair value measurement

Derivative instruments are valued based on the foreign exchange rates displayed by the financial institution's quotation system. The fair value of individual forward foreign exchange contracts is calculated using the forward exchange rate for each contract's maturity date. The estimates and assumptions used in the Company's valuation methods are consistent with those used by market participants when pricing financial instruments.

3) Valuation techniques and inputs applied for Level 3 fair value measurement

The fair values of non-listed domestic equity investments were determined using the balance sheet approach.

In the balance sheet approach, the total value, including all specific assets and liabilities of the evaluation target, is considered to reflect the entity's integrated value. A decrease in discount for lack of marketability would result in increase in fair value.

Remarks:

- a) The balances include loans and receivables measured at amortized cost, which comprise cash and cash equivalents, notes receivable, trade receivables, trade receivables from related parties, other receivables from related parties, partial other receivables, other current assets, refundable deposits and partial other noncurrent assets.
  - b) The balances include financial liabilities measured at amortized cost, which comprise short-term borrowings, notes payable, trade payables, trade payables to related parties, other payables to related parties, partial other payables and guarantee deposits.
- d. Financial risk management objectives and policies

The Group's major financial instruments include receivables, payables and lease liabilities. The Group's Finance Department provides services to the business, coordinates access to domestic and international financial markets, monitors and manages the financial risks relating to the operations of the Group through internal risk reports which analyze exposures by degree and magnitude of risks. These risks include market risk (including foreign currency risk, interest rate risk and other price risk), credit risk and liquidity risk.

The Group sought to minimize the effects of these risks by using derivative financial instruments to hedge risk exposures. The use of financial derivatives was governed by the Group's policies approved by the board of directors, whose purpose was to effectively manage the risks caused by changes in foreign currency rates and interest rates. Compliance with policies and exposure limits were reviewed by the internal auditors on a continuous basis. The Group did not enter into or trade financial instruments, including derivative financial instruments, for speculative purposes.

The Group's Finance Department reports quarterly to the Group's board of directors, which assesses if the report is consistent with the established operating strategies and risk standards.

#### 1) Market risk

The Group's activities exposed it primarily to the financial risks of changes in foreign currency exchange rates and interest rates. The Group entered into foreign exchange forward contracts to manage its exposure to foreign currency risk.

There has been no change to the Group's exposure to market risks or the manner in which these risks were managed and measured.

#### a) Foreign currency risk

##### Sensitivity analysis

The Group was mainly exposed to the fluctuations of USD.

The Group's sensitivity to a 5% increase and decrease in the New Taiwan dollars (i.e. the functional currency) against the relevant foreign currencies. The sensitivity rate used when reporting foreign currency risk internally to key management personnel and representing management's assessment of the reasonably possible change in foreign exchange rates is 5%. The sensitivity analysis included only outstanding foreign currency denominated monetary items and foreign exchange forward contracts, and adjusts their translation at the end of the reporting period for a 5% change in foreign currency rates. The movement in pre-tax profit is associated with the New Taiwan dollar strengthening 5% against the USD. For a 5% weakening of the New Taiwan dollars against the relevant currency, the pre-tax profit and the balances below would be an equal and negative change.

The Group does not have significant foreign currency risk.

b) Interest rate risk

The carrying amounts of the Group's financial assets and financial liabilities with exposure to interest rates at the end of the reporting period were as follows:

|                               | <u>June 30, 2026</u> | <u>December 31,<br/>2025</u> | <u>June 30, 2025</u> |
|-------------------------------|----------------------|------------------------------|----------------------|
| Fair value interest rate risk |                      |                              |                      |
| Financial assets              | \$ 542,902           | \$ 456,791                   | \$ 541,733           |
| Financial liabilities         | 925,967              | 538,115                      | 603,440              |
| Cash flow interest rate risk  |                      |                              |                      |
| Financial assets              | 1,001,298            | 1,251,637                    | 1,357,145            |
| Financial liabilities         | 245,000              | 340,000                      | -                    |

Sensitivity analysis

The sensitivity analysis below was determined based on the Group's exposure to interest rates for non-derivative instruments at the end of the reporting period. A 25 basis point increase or decrease was used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 25 basis points higher/lower and all other variables held constant, the Group's pre-tax profit for the six months ended June 30, 2026 and 2025 would decrease/increase by \$945 thousand and \$1,696 thousand, respectively, which was mainly attributable to the Group's exposure to interest rates on its demand deposits.

c) Other price risk

The Group was exposed to equity price risk through its investments in equity securities. Equity investments are held for strategic rather than trading purposes. The Group manages this exposure by maintaining a portfolio of investments with different risks. In addition, the Group has appointed related departments, such as finance and investment, to monitor the price risk.

Sensitivity analysis

The sensitivity analysis was based on the exposure to equity price risks at the end of the reporting period. If equity prices of financial assets at FVOCI had increased/decreased by 5%, the pre-tax other comprehensive income would have increased/decreased by \$536 thousand and \$549 thousand.

The Group does not have significant other price risk.

## 2) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. As of the end of the reporting period, the Group's maximum exposure to credit risk, which would cause a financial loss to the Group due to the failure of counterparties to discharge an obligation and financial guarantees provided by the Group, could arise from the carrying amount of the respective recognized financial assets as stated in the consolidated balance sheets.

The Group adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults.

The Group's main credit risk is concentrated on the Group's major clients. The receivables from the major clients comprised 45%, 44% and 53% of the total trade receivables as of June 30, 2026, December 31, 2025 and June 30, 2025, respectively. The clients mentioned above have good credit records, no material default risk was assessed; material credit risk did not exist.

## 3) Liquidity risk

The Group manages liquidity risk by monitoring and maintaining a level of cash and cash equivalents deemed adequate to finance the Group's operations and mitigate the effects of fluctuations in cash flows.

### a) Liquidity and interest rate risk table

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The table has been drawn up based on the undiscounted cash flows of financial liabilities

The segment revenues reported above all came from transactions with external customers.

Segment profit represented the profit before tax earned by each segment without share of profit of associates accounted for using the equity method, net gain or loss on financial assets and liabilities at fair value through profit or loss, rental income, interest income, dividend income, exchange gains or losses, other gains and losses, interest expense and central administration costs and remuneration to directors. This was the measure reported to the chief operating decision maker for the purpose of resource allocation and assessment of segment performance.

b. Segment total assets and liabilities

The measurement of segment total assets and liabilities is not reported to the chief operating decision maker. Therefore, the information is not disclosed.

c. Disaggregation of revenues from customer contracts
